*Pickup: Thursday, November 6, 2025,
9:00 AM-12:30 PM*

1967 Dodge Charger VIN XP29H72361805.

This Charger is a great representation of the muscle car era. It was born a 383 C.I., high performance, 4 barrel, 4-speed car and remains so today. There is no power steering nor power brakes on the car and was probably ordered as a base high-performance car. No check was made of the block casting numbers but the current engine is a big block Mopar equipped

on location.*

with an Offenhauser intake manifold and Holley carburetor. The transmission is a replacement 4-speed again with no verification of the casting numbers. This car has been in storage for most of the last 40 years. Within the last year it has been brought back to life with the addition of a new gas tank, fuel pump, distributor, water pump, aluminum radiator, and starter. The car is mostly complete with some finish work remaining. The body and floors appear quite solid. The stock interior is complete including the 4 white bucket seats, front and rear center consoles, dash, and instruments. The upholstery appears as if it would clean up very well. There is some wear but no rips or tears were observed. There is one additional door card included. The configuration of the whole car is quite stock. There are aftermarket chrome wheels showing their age but the original hubcaps are included. Some fresh rubber is present. The black paint appears to be lacquer and is showing its age. The black vinyl top is in remarkably good condition and showing very little to no bubbling. The front and rear bumpers are showing some pitting. The rare trim piece under the nose of the hood is present and in good condition. The milage on the odometer is 80,176. This car runs and drives but some

refinement will be necessary to put it back on the street.

1972 Oldsmobile Cutlass. This is a very nice driver quality car equipped with a 350 C.I. engine, performance 350 Olds intake, and headers. It is an automatic transmission, power brake, power steering, air-conditioned car. The air conditioning hardware is in the trunk. The body and floors appear quite good with only rust present in the rear wheel arches. The metallic maroon paint is good with some very slight bubbling on top of both front fenders. There is a 442-style hood installed done in a matte finish. It complements the car quite well. There is a complete set of chrome rally style wheels installed and in excellent condition. The interior is the high point of the car. The upholstery is amazing and appears as new. The dash pad is also unblemished. The headliner is missing. The odometer shows 84,502 miles. This car runs and drives and has recently been used as a daily driver by a family member. It should very easily be put back on the street.

Tractors/Equipment. Woods Mow'N Machine 6182 zero turn mower, runs, Kohler 18 hp. engine, 1,005 hours, 52-inch cut; Toro
